## **2018 Annual Report of Region VII**

### **I. EXECUTIVE SUMMARY**

In adhering to the agency's mission, the National Telecommunications Commission Region VII had proactively and continually creates a responsive regulatory agency that ensures the welfare and protection of our stakeholders. As a government regulatory agency, it had gathered enough momentum in 2018 in implementing its regulations and in issuing permits and licenses to its clients. The agency had also enhanced its customer's welfare and protection through faster resolution of complaints and in facilitating the needs of the clients through on time resolution and prompt actions on transactions and issuances of permits and licenses.

The regional office had been a consistent partner with other local government agencies and private sectors in various activities. We commit to serve the public in Region 7. We had been a constant partner in major events in the region like the Annual Sinulog Celebration and the Fluvial Procession. We coordinated with other government and non-government agencies on some activities like the Office of Civil Defense (OCD), National Economic Authority (NEDA), Philippine Statistics Authority (PSA), Philippine Coast Guard (PCG), Department of Information and Communications Technology (DICT), Philippine National Police (PNP), Federation of Volunteers Thru Radio Communications (FVRC) and other amateur and civic groups.

The agency had also strengthened the needs of its employees by providing capacity building of personnel by allowing them to participate in activities, trainings and seminars that will enhance their skills, elevates their self-esteem and help them to be efficient and effective in performing their duties and responsibilities. Gender and Development (GAD) activities were also conducted by the regional office for the employees to be responsive on some gender issues.

In achieving our set targets, the agency also conducted strategic planning sessions to come up with a good roadmap to meet our goals and objectives for the year 2018. We also had monthly meetings wherein we report our accomplishment, suggest solutions to some deficiencies and shortcomings in the performance of our duties and responsibilities, commit to uphold the mandate of the agency and motivate each member of the whole NTC VII team to maintain the momentum of always striving hard and build a good teamwork to meet the desired outcomes. The validation of broadband services and the conduct of Broadcast Television Surveys as well as market surveillance of devices were also conducted regularly as part of customer welfare and protection.

## **II. PERFORMANCE HIGHLIGHTS**

The National Telecommunications Commission Region VII's performance for 2018 was packed with various activities that aim in achieving more than the set targets for the year. NTC Region VII committed to provide the best service to the public. We have actively participated in various activities in the region all year round in CY 2018. The fiesta celebration of Sr. Sto. Niño de Cebu was the main event that we have participated in January 2018. The major activities in the fiesta celebration aside from the daily novenas and the daily masses were the fluvial Procession, Foot Procession and the Sinulog Grand Parade. Our regional office got involved in these major activities. We partnered with the Federation of Volunteers Thru Radio Communications (FVRC) in assisting in the safety and security of the spectators, participants, and devotees thru radio communications and closely coordinated with the technical team of Telcos in the implementation of the cellular mobile shut-off. As part of Consumers Welfare and Protection, this regional office had information dissemination drive on Text Scams and Spams thru television and radio interviews. Broadband Speed Validation was also conducted to check the internet speed within the region. We had also continuously conducted the Broadcast Television Survey for the full satisfaction of the subscribers as to the services provided by the Broadcast/Cable TV and the Telecommunication Companies. Market Surveillance of new technology devices in the market were also conducted.

As part of human resource development, all engineers of this regional office were sent to Legazpi City, Albay last May 2018 to attend the National Midyear Convention of the Institute of Electronics Engineers of the Philippines, Inc. with the Theme: "Electronics Engineering Profession in the Digital World". It was such a great privilege for all our engineers to have attended such a great event wherein they were able to meet other NTC engineers from other regions. They were able to establish a good rapport and camaraderie to their fellow Electronics Engineers in other parts of the country. Other personnel were also sent to trainings and seminars to enable them to acquire new knowledge, skills and abilities in order to be effective and efficient in the performance of their respective jobs.

During the year this regional office was also invited to be the resource speaker in the 4<sup>th</sup> SARCON (Search and Rescue Congress) initiated by the Cebu Provincial Government to share knowledge to respondents on topics about Emergency Communications and its Network. We were also actively involved on some of the trainings and seminars initiated by the Department of Information and Communications Technology (DICT), the most significant of which is the 2<sup>nd</sup> Philippine Impact Sourcing Conference (PISCON 2018) with the Theme "Bringing the Future of Work Opportunities to the countryside through Rural Impact Sourcing". In this activity our office plays an important role especially to having connectivity in far-flung areas.

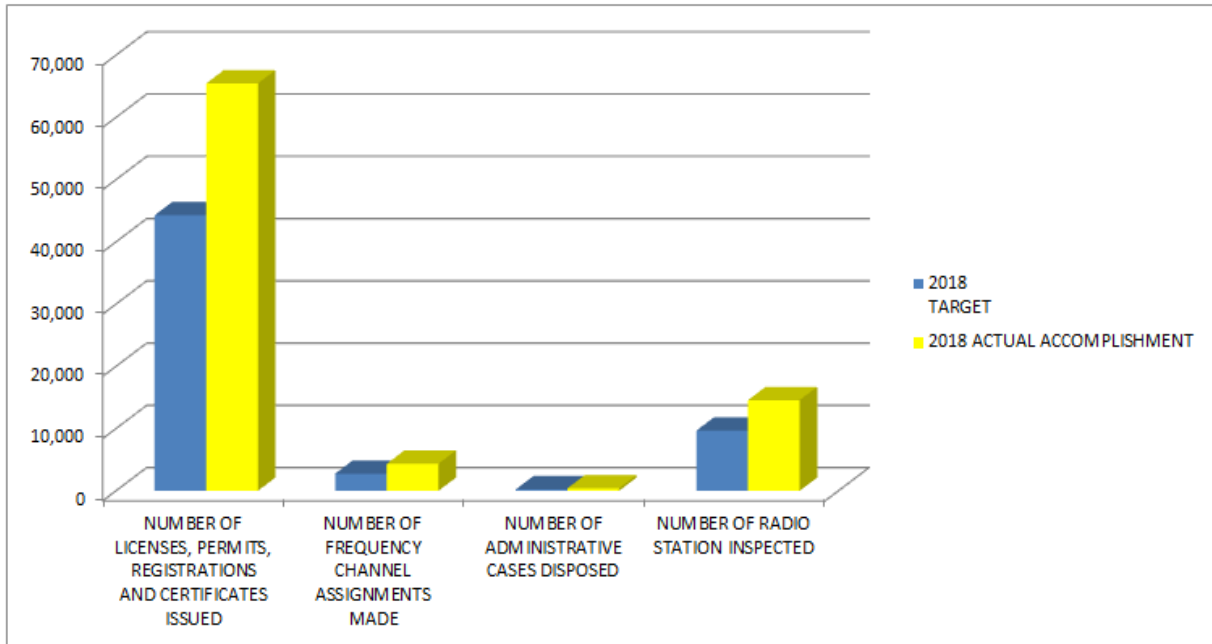

The desire to be one of the top performing regions of the Commission motivates us to work hard to surpass the set targets for the year. The office was able to exceed the physical and the financial targets for Calendar Year 2018. The joint mobile licensing with the Bureau of Fisheries and Aquatic Resources (BFAR) also helps us in achieving the desired target as it brings our services closer to the public. We also follow the practice of “No Noon Break Policy” of the Civil Service Commission and we are always on track with our Citizens’ Charter. We are very proud that we were able to meet all these accomplishments while serving and providing the public with the best customer service. The office gives credit to the commitment and the dedication of the personnel of the regional office for the exemplary accomplishments for the year 2018.

## **OPERATIONAL ACCOMPLISHMENTS**

### **A. PERFORMANCE (TARGET VS. ACCOMPLISHMENT)**

The year 2018 had been a good year for NTC VII in terms of accomplishing the Physical Targets. The agency was able to exceed the set targets, for the number of licenses, permits, registrations and certificates issued; NTC VII had accomplished a total of 65,460 which is 48% higher than set target of 44,289 for 2018. For the number of frequency channels assignments made, there were 4,360 frequencies assigned which is 58% over target. In strengthening the inspection of radio station licenses, NTC VII had inspected 14,574 units which were 50% higher than the set target of 9,687 units which translate to the number of administrative cases disposed which reached 406 cases which were 69% higher than the year’s target.

<b>ITEM</b>	<b>2018 TARGET</b>	<b>2018 ACTUAL ACCOMPLISHMENT</b>	<b>% INCREASE OVER TARGET</b>
<b>NUMBER OF LICENSES, PERMITS, REGISTRATIONS AND CERTIFICATES ISSUED</b>	<b>44,289</b>	<b>65,460</b>	<b>48%</b>
<b>NUMBER OF FREQUENCY CHANNEL ASSIGNMENTS MADE</b>	<b>2,766</b>	<b>4,360</b>	<b>58%</b>
<b>NUMBER OF ADMINISTRATIVE CASES DISPOSED</b>	<b>240</b>	<b>406</b>	<b>69%</b>
<b>NUMBER OF RADIO STATION INSPECTED</b>	<b>9,687</b>	<b>14,574</b>	<b>50%</b>

For 2018, NTC VII had surpassed the set physical targets as well as the financial target for the year. As part of the NTC’s function, in 2018 NTC VII had monitored 14,960 radio communications frequency.

On the conduct of Mobile Licensing, RLMOP and SROP Seminars for the year, the office were able to conduct 98 times RLMOP/SROP Seminars all through the year for the whole regional office including the two field offices in Tagbilaran, Bohol and in Dumaguete City, Negros Oriental. The total number of participants reached 3,947.

The consumer welfare and protection services of NTC VII received a total of 1,986 complaints in 2018 that includes cellphone blocking request, text spam and scam and complaints on malicious text and request on TOA (Tape on Air) and other various complaints which were all acted upon within the prescribed time.

As to Income target of ₱95,897,122.99 set for NTC VII for 2018, the region was able to generate ₱130,462,496.80 pesos for 2018 which is 36.04% higher than set target for the year. Comparing to 2017’s income of ₱96,017,188.93, the income generated for 2018 is 35.87% higher compared to last year.

For 2018, NTC 7’s achievements and community involvements in social accountability and in exceeding the agency’s set target only revealed that great things can be achieved if everyone will work together as a team.

## **B. HUMAN RESOURCES DEVELOPMENT/ OTHER INTERVENTIONS**

#### IV. STATISTICAL ANALYSIS OF ACCOMPLISHMENT (FY 2017 VS. 2018)

To determine how NTC 7 performed in 2018 compared to 2017, the accomplishments of said years were matched. The result of the comparison showed that 2018 was better in achieving the set target and accomplishment compared to 2017. On the number of licenses, permits, registrations and certificates issued, from 48,364 issued in 2017 to 65,460 issued in 2018 which is 35% higher than last year. For the number of frequency channel assignments made, there was a 17% increase in 2018 at 4,360 compared to 3,735 in 2017. The number of inspection and investigation conducted in 2017 was only 10,419 compared to 14,574 inspections in 2018 which is 40% higher compared to last year. This increase in the number of inspection translated to the increase of the number of administrative cases disposed which totaled to 406 cases in 2018 compared to 267 cases in 2017 which showed 52% higher compared to last year's output. The number of frequency channels monitored increased in terms of percentage at 67.56% from 8,928 frequency channels to 14,960 channels monitored in 2018. In relation to its Consumer Welfare and Protection Service, OSPAC concerns increased by 64.4% on the complaints received regarding cellphone blocking, text spam and scam, malicious text, TOA (Tape on Air) and other various complaints which totaled to 1,986 complaints received in 2018 compared to 1,278 complaints received in 2017. Bulk of the concerns received for 2018 was on lost or stolen phones (Phone Blocking) request which comprises 91.69% of the concerns received.

## **VI. RECOMMENDATIONS**

As a regulatory agency, we push to continue to provide our clients with the best customer service they can get. Providing quick response to their transactions, on time releasing of their licenses as well as fast resolution of their concerns should be the main goal of every region.

It is recommended, to tighten the agency's enforcement like regular conduct of inspection so as to increase the issuance of the licenses and permits that is required by the agency since its one of the ways that the agency can increase its income and achieved the set targets.

To keep up with the changing trends and to be able to achieve the agency's vision to be a world class regulatory agency, then the need to update or review the issued memorandums would be a good start in reaching our vision. None the less, continued training of the agency's personnel's should be given importance as well since they are the workforce in attaining such vision.
